THE IRON HALL.

A Fruitless Session at Indianapolis of the Reorganizers.

Frank Towns, of Philadelphia, Nominated to Succeed Sombory.

It is held that Judge Taylor looks with favor upon the scheme of reorganization. The committee on reorganization, provided honest and efficient managers are selected, but the case has gone out of his hands so far as his ability to control the assets is concerned.

After Receiver Falley took possession and the defendant attorneys appeared, Judge Taylor took up the case. In the supreme court, where the case will eventually go, holds there are not sufficient grounds for a receiver, then the funds will revert to the corporation. It is doubtful if the supreme court makes a ruling in twelve months, during which time things must remain as they are.

This opinion will be given to the committee representing the re-organized body when it seeks a conference with Judge Taylor, and it is believed that when the situation is fully understood it will know the life out of the proposed reorganization. The best lawyers look upon the present convention as a useless waste of time and talent.

It is a system, from whatever point of view it is regarded. MURDER SUSPECTED.

An Anonymous Letter, Throwing Some Light on the Louisville Tragedy. LOUISVILLE, Sept. 14.—There is now little doubt that Mrs. Austin and Mrs. Shurtz were murdered. The police expect to make an arrest any hour. An anonymous letter was received by Coroner Berry, Monday, which throws some light on the Louisville tragedy. The letter states that Mrs. Austin, Mrs. Shurtz, and the daughter of Mrs. Austin were all jealous of each other on account of Newton Spangner, a produce dealer. The letter states that jealousy was the motive for the murder, and that a little investigation will discover the guilty party. Spangner, who has a wife and two children, seems to have been leading a quadruple life. He rented Mrs. Austin the rooms which she used, and was one of the guests the night before the killing. Mrs. Spangner, has been receiving anonymous letters over ten years, and it is believed that the writer of them indicted the one Dr. Berry received. The Austin inquiry was postponed Monday until Friday.
